

ISLAND COUNTY FIRE PROTECTION DISTRICT # 3

Monthly meeting of commissioners June 29, 1956.
Meeting called to order at the office of the chairman at Clinton
at 8.00 P.M.

Commissioners present; H.F.Palmerston
J.T.Malone
L.S.Capp

Current bills considered and vouchers for same signed.

There was quite a lot of discussion on as to a suitable type
of truck for the district to buy, as the Saratoga, Baby Island fire depart-
ment are going ahead with construction of their fire hall and will need a
truck in the not too distant future.

Chief Hunter suggests a truck with ~~water~~ water tank capacity of
500 gallons with a front mounted pump of 500 gal. per minute capacity.
Placing this truck at Maxwellton and moving the truck that is there to
either Clinton or Harbor Center and moving the Harbor Center truck to
Saratoga.

After more discussion it was unanimously agreed to draw up a
set of specifications and submit to the several companies who supply
fire trucks and equipment, for bids. They to submit a bid for the complete
equipment mounted on a chassis ready to go. ALSO A bid for the equipment
mounted on our chassis. It was also decided to ask for bids on a suit-
able chassis. Purpose of these several bids to determine which is the low-
est priced way to buy a truck.

There being no further business meeting was adjourned at 9.30P.M.

M. E. Hunter,
Secretary
